# ChatGPT Cheatsheet

Horizon AI

Get free access to AI tutorials and guides on using popular AI tools at [joinhorizon.ai](https://joinhorizon.ai)

## Tips on using ChatGPT

- Give ChatGPT a role
- Give context of your problem before prompting
- Give the task to ChatGPT
- Mention the format in which you want your output
- Give some examples of how you want the output
- Give custom instructions for better results
- Create images using DALL-E 3
- Use GPTs for specific use cases
- Upload documents for analysis
- Get outputs in multiple formats

## ChatGPT Prompt Engineering Frameworks

1. **RACE:** Role, Action, Context, Expectation
2. **TAG:** Task, Action, Goal
3. **APE:** Action, Purpose, Expectation
4. **COAST:** Context, Objective, Actions, Scenario, Task
5. **TRACE:** Task, Request, Action, Context, Example

## Restrictions

1. Use [mention tone] tone
2. Use poetic language
3. Give [mention format] output
4. Code only in [mention language] language
5. Use [mention author] style
6. Add [mention resource] references
7. Write using [mention level] English
8. Explain like I'm [mention age]
9. Use only [mention type] sources

## ChatGPT Use Cases

- |                           |                             |
|---------------------------|-----------------------------|
| • Research                | • Human resource management |
| • Marketing               | • Customer support          |
| • Sales                   | • Learning                  |
| • Fitness                 | • Analysis                  |
| • Productivity assistance | • Brainstorming             |

## GPTs to use

## ChatGPT Chrome Extensions
